Short Description

Skin of Buddhas

Buddha is not a surname, as you might think, but an honorary title that is only given to people who have realized salvation through their own knowledge. The man who is usually referred to by this title is a historical personality. He probably lived in northern India between the 6th and 5th centuries BC and was called Siddhartha Gautama before his enlightenment. The teaching (Dharma) revealed by him, which has undergone many further training over the centuries, and the monastic order founded by him are still alive today, in recent years through the active activity of Tibetan Lamas here in the West as well.
